Workout	Dunton Park	143 Franklin	Vic Fair 9/11/16	1	

Complete Streets Public Meeting

May 25, 2016

1	Incorporate the previous street inventory work into the prioritization plan as necessary.
2	Consider the context.
3	Are homeowners still assessed betterments? (ML - not ideal and do not work)
4	Improve the signal timing on Main Street, consider adding arrows or delayed green lights to assist in left-hand turns.
5	Provide opportunities for public input in the prioritization plan and future roadway projects.
6	Allow the Ped/Bike Committee the opportunity to give input on the prioritization plan.
7	More education is necessary regarding pavement markings and "rules of the road".
8	Update signals to incorporate a cyclists notification system - example in Malden was given at the Northern Strand Bike trail.
9	Preference for "May Use Full Lane" signage over "Share the Road" (EP indicated they serve separate purposes and City may opt to use both).
10	When developing network connectivity, consider where people are going to go and the best way to get there per their mode.
11	Enforcement needs improvement - specifically for vehicles and bikes crossing crosswalks when a pedestrian or runner is in the crosswalk.
12	Fund radar guns and radar/speed limit signage.
13	Enforce speed limits, particularly around the schools.
14	Consider adding stormwater improvements to the metrics, incorporate LID and water quality improvements to roadway projects.
15	Visual cues or reduce roadway widths for street calming, including adding more street trees.
16	Melrose has gotten better for bikes.
17	Review the Main Street Corridor Plan and the Rail Corridor Plan for suggestions for the prioritization plan.
18	Add dedicated pedestrian phases to signals, including consideration of the yellow and red light combination to denote pedestrian crossing only.
19	Improve signal timing.
20	Consider the blind and visually impaired when designing intersections, especially crosswalk ramps, to be sure they are angled directly into the crosswalks.

Complete Streets Victorian Fair

September 11, 2016

The following are untagged comments received at the Victorian Fair:

1. More Stormwater Quality Controls
